

Dear Kindergarten Families,

Wesley Hall Nursery School is taking registrations for the afternoon kindergarten enrichment program called "The Kindergarten Connection". On Monday, Tuesday and Wednesday afternoons, there are special activities, playtime, stories and a great deal of fun while the children learn new information and reinforce skills learned in kindergarten!

Mrs. Ellsworth will be leading the classes and a different specialized teacher will join her each day. Here are the special activities and teachers for each day:

Mondays- ART THROUGH THE ALPHABET with Mrs. Ripperger

Mrs. Ripperger teaches our winter art classes to the fours. She will be teaching different techniques in art for each letter of the alphabet. A sketchbook with weekly drawings is included in each session.

Tuesdays- FLIGHT TO FRANCE with Mrs. Conlon

Mrs. Conlon has done a great job introducing our fours to France and the beautiful French language. The children in the kindergarten program will learn about the sights and sounds of France, learn to converse in the language and create books about France. They will also create word books in French. French songs and games will be included in each class.

Wednesdays- MATH MUNCHERS with Mrs. Constantine

Mrs. Constantine, Wesley Hall's resident chef, will teach kindergarten math skills through her cooking classes. New tasty treats will be created each week and addition, subtraction, counting and measuring skills will be taught while making them. Recipe books and special cooking clothing will be created.
